PROFESSIONAL SUMMARY

Motivated Software Developer and final-year Software Engineering student at Babcock University with hands-on experience building mobile and web applications. Skilled in React Native, Laravel, and Supabase with a strong track record of delivering authentication systems, booking solutions, and full mobile app deployments. Passionate about AI and Robotics.

EXPERIENCE

Software Developer Intern | **Semlark Technologies Limited** *Jan 2025 – Jun 2025*

- Contributed to cloud computing tasks and supported deployment of cloud-hosted applications.
- Participated in software development activities including feature building and code reviews.
- Collaborated with the engineering team, gaining hands-on exposure to professional dev workflows.

Mobile Application Developer | **Daily Grace App (Project)** *2024 – 2025*

- Built features using React Native & TypeScript; integrated Supabase for real-time data and auth.
- Configured Android build pipelines via Expo CLI and managed APK deployment processes.

Full Stack Developer | **User Authentication System (Project)** *2024*

- Designed secure login/registration flows with Laravel (PHP), MySQL, and a React frontend.
- Built RESTful API endpoints; applied best practices for password hashing and session management.

Web Developer | **Booking & Form Management Solution (Project)** *2024*

- Developed end-to-end form submission and booking workflows using Laravel and MySQL.
- Designed relational DB schemas and server-side validation for reliable data persistence.

EDUCATION

B.Sc. Software Engineering *2022 – 2026 (Expected)*

Babcock University, Ilishan-Remo, Nigeria

TECHNICAL SKILLS

Languages & Frameworks

JavaScript (ES6+)	TypeScript	PHP	React	React Native
Laravel	HTML5	CSS3	Expo	

Database & Backend

Supabase	MySQL	phpMyAdmin	REST API	Authentication Systems

Tools & Platforms

Git & GitHub	VS Code	Android Studio	Expo CLI	Cloud Computing

AREAS OF INTEREST

Artificial Intelligence · Robotics Engineering · Human-Robot Interaction · Intelligent Systems · Mobile Technologies
